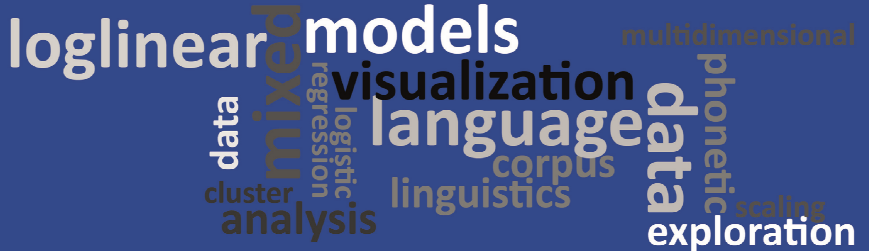
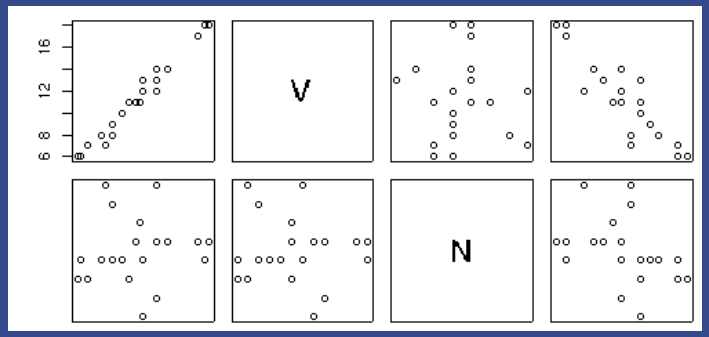
Universität Zürich[UZH]



Mini R – introductory course

useR!



You have research or scientific **data** and would like to have more skills and tools to **analyse and visualize** them?
Heard about **R** but never dared to have a look at it?
How to **download**, **what** to install, get started, read data?

Then visit our Mini R – introductory course

Monday 23rd of November 10:00 – 12:00: installation, comparison with spss and/or excel, basic concepts
Monday 23rd of November 13:30 – 16:00: hands on R introduction: replicating some results of a linguistics publication
Monday 7th of December 13:30 – 16:00: overview of some typical R statistical methods, more case studies and examples

Participants taking part to the 3 sessions and realizing the practical part (approx 8 hours between the Nov23 and Dec 1st) will be granted at least 1 ECTS point. Contact, inscription, questions: sascha.voellmin@uzh.ch
